YOUR SHOWROOM FLOOR PLANNING GUIDE

8x10 and 9x12 Displays

Size	Arms	A	B	C	D	E
8x10	20	5'9"	8'10"	17'6"	10'7"	8'6"
	30	8'3"	8'10"	20'	10'7"	8'6"
	40	10'9"	8'10"	22'6"	10'7"	8'6"
	50	13'3"	8'10"	25'	10'7"	8'6"
9x12	20	5'9"	9'8"	19'1"	12'7"	9'4"
	30	8'3"	9'8"	21'7"	12'7"	9'4"
	40	10'9"	9'8"	24'1"	12'7"	9'4"
	50	13'3"	9'8"	26'7 1/2"	12'7"	9'4"

*On all 8x10 and 9x12 displays the arm mounts on the very top of the display therefore the highest point is the top of the arm.

**TILT BACK / For swing arm displays to operate properly the top of the frame must be tilted back 3/4" per each 4' of the frames height. For instance, a 9x12 standard frame is 151 1/2" in height. This frame must be tilted back 2 1/2" so you must add this to the frame height making a total of 154" ceiling height necessary to accommodate a standard 9x12.

***All of DCI's standard displays open to 45 degree angles. To save valuable floor space our displays can be custom built to open at less than a 45 degree angle. For instance, a standard 20 arm 9x12 has a leg to leg opening of 19' 1". By making the opening angle 60 degrees instead of 45 degrees this opening can be cut to 16' 1".
